

Cube Wrap

When it comes to individual packaging, many successful products rely on Cube Wrap from Huhtamaki. The clever and patented packaging solution based on mono OPP reduces costs up to 30% while using only half the material of competing products.

Huhtamaki

Good for the environment and product presentation

Cube Wrap is ideal for stock cubes. Eco-friendly and cost-effective, it's the smarter alternative to aluminium/paper and aluminium/plastic packaging. The material is notable for its high printability and high quality appearance. Cube Wrap comes in a range of shapes and sizes, and also partial or full matt finishes are available.

Cube Wrap Qualities

- High quality aroma barrier
- Low water vapour permeability
- Good UV resistance
- Grease resistant
- No delamination
- Improved temperature resistance during transport and storage – particularly important in hot countries

Cube Wrap Advantages

- Lowers costs and increases production efficiency through standardization, shorter lead times and fewer roll changes
- Premium packaging for premium products
- Full food contact approval
- Very good puncture resistance
- Easy opening option with tear tape available
- Excellent performance on different high-speed machines
- Lower weight leads to logistic benefits and savings, e.g. freight, reel weight and storage

All our products can be customised to fit your requirements.
