

Tube Laminate

Huhtamaki is your global partner in tube laminates. Our products set the benchmark in many industries, from skin and dental care to foodstuffs, healthcare and technical applications. We produce laminate for nearly all the toothpaste tubes in Europe, because our clients know we're committed to their success.

Huhtamaki

Solutions for industry leaders

The Huhtamaki advantage

- Largest product portfolio worldwide
- More than 20 years' experience in tube laminate production
- Long-term commitment to R&D and technical support
- Secure supply of raw materials thanks to global sourcing
- Industry-leading customer service (e.g. planning support)
- Professional sales team with extensive knowledge of the market
- Close cooperation with leading tube-machine producers
- Back-up solutions due to production plants in Europe, Asia and South America
