

GREAT  
TO GO®

Sustainable  
packaging  
solutions

**Huhtamaki**

# Make the switch to sustainable packaging

Award winning innovation :  
The Future Smart™ Duo Fiber Lid

Great To Go® is a comprehensive range of high quality environmentally optimal food packaging products from Huhtamaki. All products in the Great To Go range have been carefully picked to give you a choice of packaging products to serve your delicious food and drinks sustainably.

This includes innovative products from our Bioware™ and Future Smart™ ranges including those made from sugarcane, sustainably sourced paper and renewable materials like wood, all of which present your food perfectly.

If you are looking for a wide selection, high quality and sustainable solutions, then look no further. The Great To Go range makes it easy for you to switch to a full range of sustainable packaging products.

The range also includes many innovative products which are excellent sustainable alternatives to traditional plastic packaging.

Wooden Cutlery : Premium Wooden Cutlery: Plastic free and fully plant based

# Now available easily

From Fiber lids for paper cups to premium wooden cutlery and from high quality fiber plates to food containers you need not look anywhere else to fulfill your packaging requirements. Our supply network and local sales teams are on hand to serve your needs quickly and efficiently.

Good food offers a lot – satisfaction to hearts and minds, wonderful conversations, happy times and memorable moments. With the Great To Go® range of products from Huhtamaki you can give people more reasons to fall in love with food and enjoy their dining experiences. With a wide selection of products, you will find a sustainable packaging solution for every need.

Fiber Plates : Sustainable and plastic free

**Future Smart™:** The Future Smart range of packaging products are made from fully renewable plant-based materials and are perfect options for you to renew your take-away beverage and food packaging.

**Bioware™:** This is our portfolio of certified compostable packaging products made mostly from renewable materials. Bioware products have been designed to minimize their impact on the environment.
