

## Huhtamaki, Inc. patents

Huhtamaki believes that investing in the best research and design in the packaging business leads to development of products that serve our customers needs and deliver efficiencies in our production. The Company devotes valuable resources to the research and development each year, and our patents represent a portion of that investment. Huhtamaki typically files a substantial number of U.S. patent applications each year, along with many foreign patent applications based on our US filings. The North American segment of Huhtamaki has an extensive patent portfolio and we have served as the innovation leader in the foodservice and consumer packaging industry for years. We are committed to protecting those innovations that set us apart in our industry. Huhtamaki, Inc. currently has over 389 issued patents in its portfolio worldwide.

In accordance with Section 287(a) of Title 35 of the United States Code, the reader is hereby placed on notice of Huhtamaki, Inc.'s rights in the United States Patents listed on this site and associated with the products listed below.

Many of the listed U.S. patents also have corresponding foreign patents issued. Additional patent applications are also pending for the products listed below, as well as other products not listed.

Huhtamaki, Inc. is a wholly owned subsidiary of Huhtamaki Oyj. The patents listed above are owned Huhtamaki, Inc. and is not intended to be an exhaustive list of all patents owned worldwide by Huhtamaki Oyj.
