

Frozen Dessert Solutions

Innovation built by experience

For eight decades, Huhtamaki has been engineering efficient packaging solutions for the frozen dessert industry. Informed by the past and designed for the future, our dynamic systems will help you realize your full packaging potential.

Huhtamaki

One size doesn't fit all.

Huhtamaki provides a variety of packaging solutions, ensuring you never have to compromise. With our industry-leading expertise and outstanding service, we tackle your unique challenges with innovative solutions that go beyond packaging. In a dynamic market where trends shift, fads fade and costs rise, we're here to help you stay ahead with unique packaging solutions and a personalized approach.

1

We work *with* you. Our solutions work *for* you.

With Huhtamaki, one contact gives you access to a world of resources, experience, technology and proven packaging solutions in all shapes and sizes. Our Systems approach includes printed components, proven machinery, unique packaging and high-quality service. From formers to fillers to containers to lids, Huhtamaki is your trusted partner for all your frozen dessert packaging needs.

2

Made better.

Quality products start with quality equipment. All of Huhtamaki's machines are designed and built in the USA by equipment engineers who understand packaging to give you access to efficient technology that's easy to operate in your own space. The equipment is supported by Huhtamaki Field Service Technicians to ensure the consistency, quality and integrity you deserve.

3

Unmatched versatility

Don't compromise when it comes to your containers. Get exactly what you need with Huhtamaki's variety of options when it comes to shape, size, material and more. Plus, all containers are made in the USA using paperboard from certified sources, ensuring that fiber comes from responsible, renewable sources.

Superior shelf presence

Huhtamaki's containers are designed to garner shelf presence in any store setting and maximize value for producers, whether preformed or formed in-plant. The containers' efficient shapes are attractive to shoppers and let producers place more of their products in the same shelf space. Plus, our brilliant graphics capabilities and state-of-the-art printing technologies ensure an eye-catching product presentation. Discover the options below.

Regal® Containers

The Regal® Container's non-round shape and wide mouth make it easy to scoop from. Plus, our size variations like LNR (Large Non-Round) and XT (Extra Tall) give you more on-shelf flexibility.

Shape: Non-round

Sides: Tapered

Bottom: Recessed

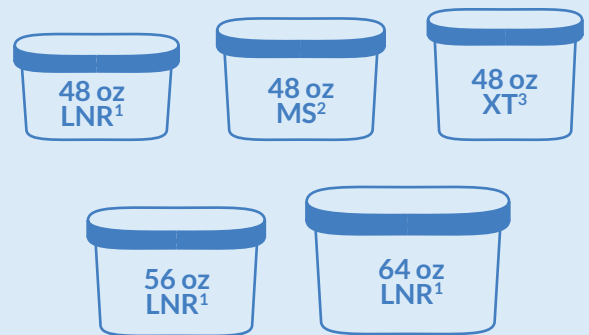

Cover Options: All Paper Majestik® Lids or Composite Medley® Lids

System: Preformed, nested

Equipment: CF-3200 Unscrambler, FC-2300 Filler, FC-2320 Filler

Sustainability: Regal® Containers help reduce plastic use compared to plastic containers and are made from at least 75% renewable material. Additionally, they are offered in both recycled content paperboard and FSC®-certified paperboard.

Size Options:

¹Large Non-round, ²Midsized, ³Extra-tall

Standard 22" shelf

Maximize your space.

Regal® XT 48 oz containers go five deep on a standard 22" shelf. While others only allow four, Regal® XT's narrow width and tall height give you the same volume in less space.

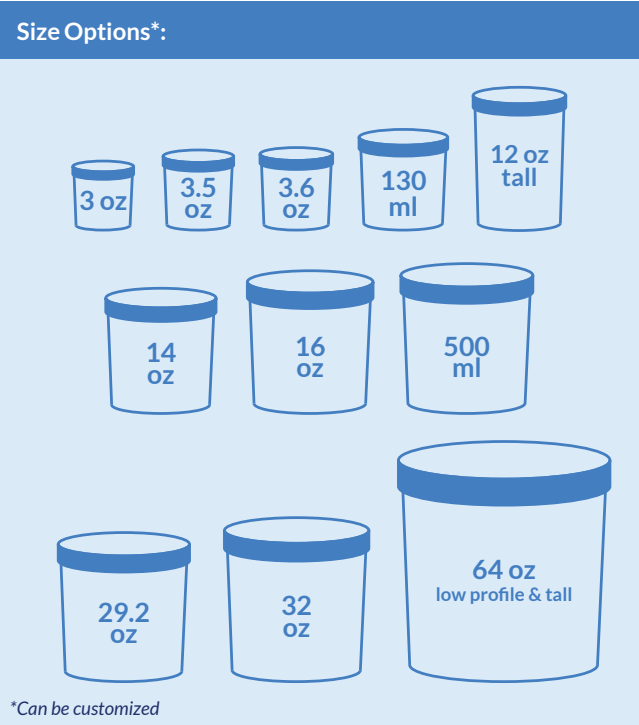

Nestyle® Containers

Nestyle® Containers are the perfect solution for single-serve or family-sized frozen desserts, thanks to their many sizes and shapes.

Shape: Round
Sides: Tapered
Bottom: Recessed
Cover Options: All Paper Nestyle® Lids or Composite Medley® Lids
System: Preformed, nested
Equipment: CF-3200 Unscrambler, FC-2300 Filler, FC-2320 Filler
More: Ready to fill right out of the box. Plus, high-quality lithographic printing options including on the ring of the all-paper cover. Custom sizing is available with minimum requirements, along with ICON® recyclable options.
Sustainability: Nestyle® Containers help reduce plastic use compared to plastic containers and are made from at least 75% renewable material. They're also recyclable.* Additionally, they are offered in both recycled content paperboard and FSC®-certified paperboard.

*Rinse, break down and place with other paper products in communities that recycle paper products. Check locally: may not be recycled in your area.

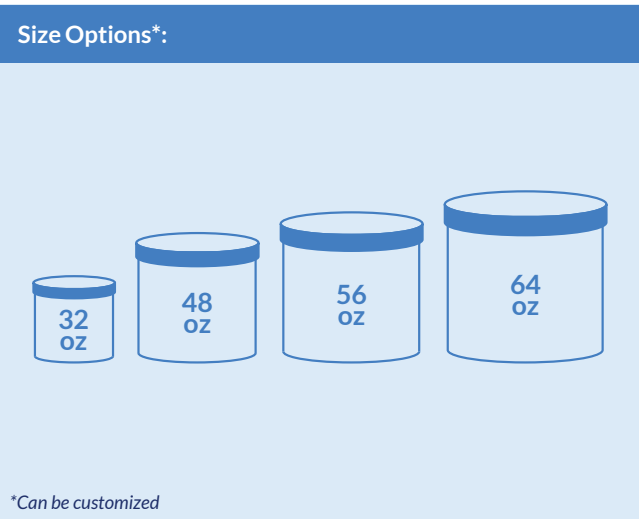

Convocan® Containers

Convocan® Containers are convenient and can be formed in-plant to gain control and maximize efficiency.

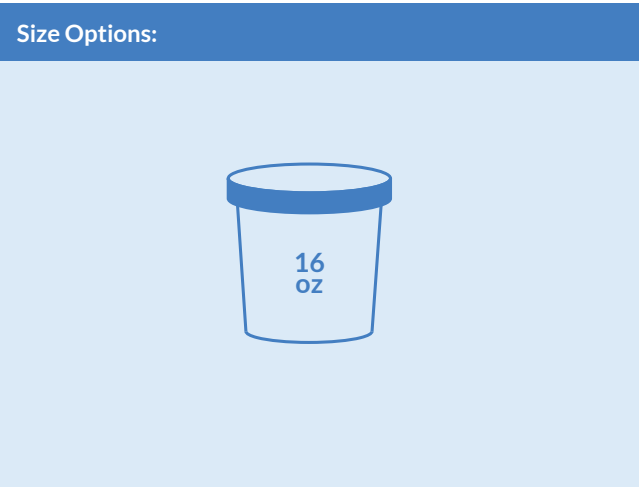

Shape: Round
Sides: Straight
Bottom: Flat
Cover Options: All Paper Convocan® Lids
System: In-plant forming
Equipment: FM1400 Forming Machine
Sustainability: Convocan® covers reduce plastic use compared to composite covers. Containers are offered in both recycled content paperboard and FSC®-certified paperboard. The Convocan® system's in-plant forming takes trucks off the road by shipping components flat, allowing a higher volume per truckload.

ICON® Containers

ICON® Containers are sweet from the outside in thanks to their sustainability benefits.

Shape: Round
Sides: Tapered
Bottom: Recessed
Cover Options: All Paper Nestyle® Container Covers (no PE)
System: Preformed, nested
Equipment: CF-3200 Unscrambler, FC-2300 Filler, FC-2320 Filler
Sustainability: ICON® Containers help reduce plastic use compared to traditional plastic containers, composite covers and PE-covered paper cups. They are made from at least 75% renewable material and are recyclable.*

**Rinse, break down and place with other paper products in communities that recycle paper products. Check locally: may not be recycled in your area.*

Recyclable certification from WMU applies to ICON® and Nestyle® Containers/all-paper lids.

Efficiency meets optimization

Streamline your production with Huhtamaki Systems. Designed by equipment engineers who understand packaging, our formers, fillers and unscramblers are efficient and easy to operate. Discover them below.

CF-3200 Unscrambler

Containers: Round, Non-Round, Medley® and Majestik® Lids

Production Rate: ranges from 80 large covers/minute to 300 small covers/minute

Length: 56 in (1422.40 mm)

Width: 61 in (159.40 mm)

Height: 77 in (1955.80 mm)

Load Height: 42 in (1066.80 mm)

Weight: 780 lbs (353.80 kg)

Electrical: 240 Volts AC, 10 amps, 3-phase, 60 Hz, 3 amps or 480 Volts AC, 3-phase, 60 Hz, 5 amps

Pneumatic: 2 cfm at 80 psi, measured at machine

FC-2300 Filler

Containers: Regal®, Nestyle®

Production Rate: Single drop-60 cartons/minute, 16-64 oz, Dual drop-120 cartons/minute, 16 oz only

Length: 83 in (2108.20 mm)

Width: 36 in (914.40 mm)

Height: 59 in (1498.60 mm)

Weight: 1900 lbs (861.83 kg)

Electrical: 230 Volts AC, 10 amps, 3-phase, 60 Hz

Pneumatic: 5 cfm at 80 psi minimum

FC-2320 Filler

Containers: Regal®, Nestle®

Production Rate: Single drop-75 cartons/minute, 16-64 oz,
Dual drop-150 cartons/minute, 16-32 oz

Length: 75 in (1905 mm)

Width: 46 in (1168.40 mm)

Height: 86 in (2184.40 mm)

Weight: 2600 lbs (1179.30 kg)

Electrical: 230 Volts AC, 3-phase, 60 Hz, 10 amps

Pneumatic: 5 scfm at 60 psig

FM 1400 Forming Machine

Containers: Convocan®

Production Rate: 65-75 Convocan® containers/minute

Length: 92 in (2336.80 mm)

Width: 64 in (1625.60 mm)

Height: 84 in (2133.60 mm) with guards in operating position;
108 in (2743.20 mm) with guards in service position

Conveyor Height: 38-39 in (965 – 991 mm)

Weight: 8,000 lbs (3628.70 kg)

Electrical: 240 Volts AC, 3-phase, 50/60 Hz, 80 amps

Pneumatic: 100 cfm at 90 psi minimum
