# Great to go.

## WE'VE GOT YOUR PACKAGING COVERED

Daily routines and consumer behaviours have changed, particularly the ordering, collection or delivery and consumption of meals and drinks. This has led to the introduction of new and evolving service models.

Packaging is instrumental in delivering the latest menus, drinks and treats to consumers. The functionality of the packaging is vital to enable excellent service as well as maintaining the all important quality of the food within.

Great to Go is our comprehensive range of fiber based, sustainable food and drink packaging. All the products in the Great to Go range have been carefully chosen to present a variety of solutions which are made from renewable materials, sustainably sourced paper board and paper board with little or no plastic content using predominantly PFAS free materials.

The natural Kraft look of our ranges mean that our products work well together and compliments any foodservice environment

# Together we can make a difference.

## RECYCLING OUR FLUTED & CARTON BOARD FOOD PACKAGING

Packaging enables us to conveniently consume food wherever and whenever. It needs to guarantee safety and hygiene, help prevent food waste and give access to food by supporting its easy and efficient delivery.

In line with OPRL, our fluted and carton board paper based packaging is recyclable. To aid recycling:

- Remove food waste/wipe
- If the pack has a window, remove, separate and dispose of in general/residual waste
- Flatten the pack and dispose of in recycling waste

For more information on OPRL please visit:  
<https://www.oprl.org.uk/>

## NEW STUDY ON ENVIRONMENTAL IMPACTS OF PACKAGING

Huhtamaki welcome the new scientific insights into the environmental impacts of single-use packaging vs multiple use highlighted in this new LCA, conducted by Ramboll. Read more in this blog: [bit.ly/2XCxpFi](https://bit.ly/2XCxpFi)

## RECYCLING OUR PAPER CUPS

All of our paper hot, cold and vending cups can be recycled. The National Cup Recycling Scheme sees major businesses working together to create a system for collecting and recycling hot and cold paper cups. There are currently four recycling facilities in the UK that accept paper cups: James Cropper, D S Smith, ACE UK and Essity. In the UK we now have enough recycling facilities accepting paper cups to recycle every paper cup on the market.

The National Cup Recycling Scheme aims to make the collection of paper cups commercially attractive for waste collectors to include as part of their recycling offering to customers. There are 25 waste contractors signed up to the Scheme, all offering paper cup recycling services.

## INNOVATION & ADAPTATION

### IT'S ALL IN THE DETAIL!

As an innovative business we are always looking at how to make changes to our packaging to make our customers' lives easier! Changes don't have to be big to make a significant difference.

### PROTECTING FOOD, PEOPLE & THE PLANET

Today, packaging plays a significant role in food safety and convenience. We are committed to making packaging more circular and we embed sustainability in everything we do.

Through our sustainable packaging solutions, we protect food, people and the planet, enabling wellbeing and convenience for people around the world

### FIBER BASED FOOD PACKAGING

We are seeing a continual trend in fiber-based packaging replacing many other materials for takeaway, delivery and in retail use; providing unique benefits and functionality for operators and consumers.

Fiber is the main volume raw material for Huhtamaki and currently sits at 98% of our material usage. Our goal is to use 100% of the wood fiber from recycled or certified sustainable sources.

### THE KEY TO UNDERSTANDING THE INNOVATIONS BEHIND THE PRODUCTS

## FLUTED PACKAGING

## SUSTAINABILITY IS KEY

Proud to support sustainable sourcing and the principles of the EU Timber Regulation. No 995/2010

Our UK manufactured paper cups are made with 100% PEFC certified paper board.

Made from renewable materials with a Future Smart™ plant based coating.

These products do not contain any plastic content.

Our packaging offers advanced grease resistance without using PFAS chemicals.

Manufactured using fiber or paper from renewable sources and are industrially compostable according to EN13432.

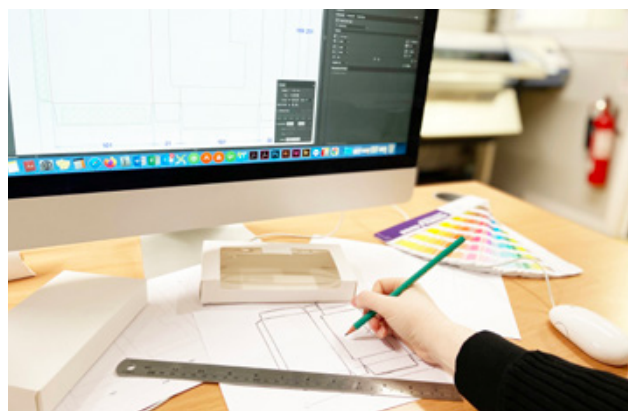

# Creatively customised.

## STAND OUT PACKAGING

Custom printed packaging is an important messaging tool, to not only support your brand, but to communicate product, promotional and sustainability messaging, right into the hand of consumers.

The vast majority of our packaging allows for personalisation through custom printing. Our fluted food packaging and double wall cups can be embossed to provide a further level customisation

- Our UK in-house packaging design and development teams are highly experienced to support our customers
- Strong expertise in fiber based packaging development, in various forms and providing plastic replacement solutions
- We have access to a range of materials to produce at our own manufacturing sites
- Significant manufacturing footprint in the UK and Ireland with seven manufacturing sites

# Fast and easy custom printed paper cups.

## PERSONALISED PRINTED CUPS

Personalised printed cups are a great way for independent operators, takeaways and event companies to get their brand and message across to people. You can now order personalised printed cups from [www.cupprint.com](http://www.cupprint.com).

- Short run personalised printed cups
- High-quality all-over printing
- 12oz and 16oz smooth double wall cups, PE coated
- Choose from matt or gloss
- Made to order from just 1000pcs
- Ready in 15 working days
- Easy artwork options
- 3D proofing online

Get a quick quote by visiting: <https://cupprint.co.uk/#YourBrandOutThere>

## FOOD PACKAGING LABELS

Our food packaging labels are a versatile addition to our range. With a simple look they are multi-functional for food and beverage use, the colour perfectly complements our range of Kraft packaging.

- 3 generic labels to complement our range of takeaway and home delivery packaging
- Provides sign of tamper evidence
- Additional hygiene

Diplo ECO® label - the waste reducing label

- Pressure sensitive label makes for an efficient use of material
- Labels on both sides of the liner
- 50% reduction in support liner
- 40% reduction in material weight
- Less material to transport

## THE FAST AND THE FOODIES

As eating habits and lifestyles continue to change, packaging is becoming a significantly more important consumer touchpoint and consideration.

Quality food packaging plays a pivotal role in delivering great food whether dining in, taking away or getting your favourites delivered to your door in a fast, efficient and responsible manner.

## PREMIUM BURGERS PERFECTLY PACKAGED

Our one-piece fluted burger box and meal box, provide excellent heat insulation, which keeps the product hotter for longer. Our improved design has greater functionality and with no plastic content. Microwaveable and ovenable up to 220°C for 30 mins, burgers as well as pies can be cooked or reheated directly in the box.

With the sizes of burgers growing over the years, the height of our burger box is ideal for gourmet burgers, whether meat or plant based, tower, dirty or a classic.

#### REASONS YOU'LL LOVE IT

**New push in vent holes allow the packaging to  
preserve and maximise the texture of the meal**

BURGERS TO GO

Burgers are established on menus up and down the country and one of the nation’s favourite foods, yet they still continue to be a growing food category. With the growth in authentic American burgers, plant based, and brunch burgers, innovation in this area continues to drive menu development. Plant-based food has experienced steady growth over the last five years with little signs of changing. Burgers cross over a number of key food trends, such as an emphasis to use quality ingredients; affordable, indulgent, comfort food and the desire for consumers to ‘make it their own’ by customising to suit taste and flavours. Convenience is key to driving ever changing mealtimes, how food is served, where it is consumed and an increased focus on flexibility. Burgers are perfectly suited to the consumer trends and rapidly evolving market of home delivery, take out and on the go.

# Fish n chips

## FANATICAL ABOUT FISH

Fish and chips is one of the nation's favourite dishes and is now a global phenomenon, still growing and instantly recognised as British the world over. British consumers appetite for Fish and Chips doesn't seem to waver, with 382 million meals eaten from fish & chip shops every year and a staple choice on many menus.

With changes in consumer lifestyles comes a shift in behaviour. With a rapid rise in delivery, it is vital that operators can retain their level of service from the preparation of meals right through until it reaches the consumer.

## A TRADITIONAL BRITISH MEAL

Fish and Chips caters for the comfort food trend, which is often at the heart of food purchasing decisions. As sharing food focused occasions become more prominent with family and social groups, delivered meals and food to go mean that these mealtimes are a growing opportunity to reach consumers with quality food packaged and served; nobody wants soggy chips!

## SUSTAINABLE PACKAGING TO SUPPORT YOUR BRAND

With the right packaging choices the environmental impacts of making safe food accessible to the world's growing population can be reduced.

We see it as our responsibility to produce the best fit-for-purpose packaging to protect and serve food while embedding sustainability in everything we do.

At Huhtamaki, fiber is our main volume raw material and our sustainable packaging solutions can replace many other plastic and EPS versions on the market.

Our sauce pots are manufactured from high quality, recyclable paper board so you can provide customers with a fiber focused packaging solution.

## THE FINGER FOODIES

An emerging trend in takeaway and delivery is snacks, light bites, side dishes and smaller portions, as many food manufacturers and restaurants are promoting smaller meals choices.

The gourmet food trend is certainly driving the food delivery market as consumers look for ways to upgrade and indulge themselves. Sides are often becoming the star of the meal as many established dishes on menus are available with different toppings or flavours, such as loaded fries, meat or plant based goujons, bites and strips.

Taste vented fries & sides carton:

Taste pillow box:

Taste closed fries box is ideal for sides such as fries, wedges and onion rings. The design means that the food doesn't spill out during takeaway or delivery. The new vents can be pushed in to allow moisture or residual heat to escape and flow through the pack, keeping the food crisp and fresh, from packing to eating.

Taste pillow box has a large window for excellent visibility and on shelf display. The window tears off and can be removed for easy access and eating directly from the box. It also includes new improved push in vents, ideal for fried foods, keeping food crisp and fresh, while our fluted material provides excellent insulation and heat retention properties.

## PIZZA PERFECTION

Quality artisan, oven baked and sourdough pizzas are driving market growth as well as innovations spanning breakfast, brunch, gourmet and plant based pizzas. Pizza is the perfect food choice for customisation; consumers can choose from new and exciting toppings, vegetarian or vegan choices and seasonal flavours, as people continue to be more adventurous in their tastes.

Our fluted pizza boxes provide excellent heat insulation, which keeps the product hotter for longer, perfect for delivery and on the go. When positioning your menu and sourcing quality ingredients, don't forget to source quality packaging to reflect this to the consumer. Use windowed pizza boxes to show customers the food and enhance visual appeal.

## HOT FOOD

As consumer demand for hot food to go continues to grow, so do the opportunities for operators across Foodservice, Home Delivery, Grab & Go and Convenience sectors.

The blurring of lines between all these sections of the market, coupled with the introduction or expansion of hot food to go propositions continues to intensify. As takeaway and delivery ranges evolve, retailers are expanding fast, same day home delivery with small baskets or no minimum spend, never has it been more important for prepared meals and food to go to be a major part of their offer.

# Serve Up

# Served in style.

## HOT FOOD BOXES AND TRAYS

Our versatile Kraft, fiber-based food boxes and trays are perfect for hot and cold meals or snacks. For serve over, hot cabinet, takeaway and delivery use. Our widespread material base and manufacturing capabilities means our range comprises different fiber based solutions.

Changes in consumer behaviours and daily routines means the food service landscape is continuously adjusting to meet consumer needs. Subsequently, the increased adoption of delivery continues as consumers order from the comfort of their own home, getting their favourite foods delivered directly to their door.

### REASONS YOU'LL LOVE IT

The addition of the new probe holes allow you to check the temperature of the food without opening the pack.

# Full of new features.

**Taste to go boxes are dual ovenable and the innovative design means heat and moisture are retained, making them perfect for serving a variety of food.**

## PACKED FULL OF PERFORMANCE

Use for hot and cold foods, main meals or snacks, fried food or those with a sauce like curry and rice.

A new probe hole allows you to check your food temperature without opening the pack.

Dual ovenable up to 220°C for 30 minutes and microwaveable, so the food can be cooked or re-heated in the pack.

Extensively tested for use in a hot cabinet. Up to 4 hours at 85°C - 90°C.

Taste now caters for both dry and wet foods with the addition of new improved push in vents ideal for fried foods.

Improved design for greater functionality with better heat retention and leak resistance.

Taste food to go boxes:

Recyclable and in-line with OPRL guidelines with under 10% plastic content.

Made from papers from sustainably managed forestry sources.

Webbed design prevents leaks. Suitable for dishes with wet sauces or cooked in oil.

### FOOD TO GO

With the prevalence of ready to eat hot takeaway or delivered meals, paired with the increasing diverse product offering, this category is thriving. The market is seeing new channels, delivery services and hot food concessions being introduced to extend reach and accessibility to consumers.

Hot food packaging has never been so important to deliver quality, freshness and convenience right to the hands of the consumer.

### GREAT TASTE

Our insulated Taste hot food to go boxes are available with or without windows. We have enhanced the design to give you the best performance, improving both the functionality and heat retention.

Taste innovative design means that heat and moisture are retained, which is perfect for serving curries, chillis and rice. When delivering foods that you want to stay crisp or dry, Taste hot food boxes work for that too. The perfect versatile hot food packaging range.

# Packaging delivered. Taste guaranteed.

## FIBER MEAL BOXES & SNACK TRAYS

Our Great to Go range includes hinged food boxes and snack trays made with natural fibers from a rapidly renewable resource. Offering a stylish and sustainable alternative to and suitable alternative to Polystyrene (PS and EPS) and Expanded Polypropylene (EPP). Perfect for busy operators serving a wide variety of over the counter, takeaway and street food hot and cold meals and snacks.

Our takeaway food boxes and snack trays are plastic free and part of our Bioware portfolio of certified compostable packaging products to EN13432 standards in industrial facilities where these exist.

Our range of fiber food to go boxes and trays ensures your food can be served to you fast and fresh, conveniently accessible to enjoy and is perfect for a wide range of street foods and snacks.

## ALFRESCO LUNCH

The way in which consumers want to purchase, order and eat takeaway food had already started to change. Over recent months this has hugely accelerated, as operators scale up and adapt their business models. Through street food vendors, outside dining, takeaway and delivery, the way we eat has transformed, and so the right packaging is key to deliver your food to the consumer.

Available in one or three compartment boxes with hinged lids, our lightweight, sustainable and plastic free Bagasse fiber food boxes, provide a sturdy and versatile solution.

# Salads

# Scrumptious salads.

## GOOD FOR YOU, GOOD FOR THE ENVIRONMENT

Salads are increasingly taking centre-stage as a main meal and are holding their own. Consumers want filling and healthy salads made with exciting ingredients and flavours to make their salad a complete meal, delivering on taste, health and convenience.

There's a new wave of salads which are so much more than leaves including protein, beans, rice and pulses with salad bowls proving very popular.

Consumers continue to eat with their eyes so feed their senses with fresh and vibrant food that can be seen through the lid or window to enhance your product.

## TASTE HOT SANDWICH PACKS

Our fluted Taste pillowpacks with grease resistant lining are perfect for customers wanting to eat hot sandwiches on the go or delivered to their place of work or home. The range of 3 sandwich packs matches the market demand for sizes of toasties, paninis and hot wraps.

Our Taste pillowpacks aren't like many others on the market, ours are ovenable up to 220°C for 30 minutes and microwaveable so food can be cooked or heated in the pack and perfect for hot cabinet use.

The distinctive fluted material provides excellent insulation and heat retention properties which keep the food product hotter for longer. The grease resistant lining and outer, prevents grease transfer for a stylish finish, easy handling and hold.

# TASTE SMALL TRAY

Our small Taste tray is lightweight yet strong and rigid, with a grease resistant lining perfect for a wide range of foods such as filled hot croissants, bakery goods, cheese and bacon turnovers, pastries and sausages rolls.

We've designed our Taste tray so it is ovenable up to 220°C for 30 minutes and microwaveable so food can be cooked in the pack or reheated. It works in collaboration with heating cabinets to give a better quality product. The film is already attached to the pack and covers the food, providing protection when in a counter, while still allowing airflow to crisp up product.

## Fluted hot tray pack

## ASIAN CUISINE FOOD PACKAGING

Asian inspired foods make a culinary impact on consumers through all food channels. Pan Asian is about the entirety of Asian cuisine and there is a growing consumer pursuit to discover new flavour options.

# Pan Asian

Perfect for Chinese, Indian, Thai  
and other exciting Pan Asian  
inspired cuisines.

# Asian cuisine.

## STYLISH ASIAN INSPIRED FOOD PACKAGING

As the choice of fast, nourishing and flexible eating options becomes of growing importance to people, versatile, high quality food packaging is of equal standing.

Our Kraft, paper board based range of products, suit the modern day demands for Pan Asian food to go and delivery. The street food revolution and boom over recent years paired with the consumer drive for adventurous foods, has shaped this dynamic food sector.

Our VIP boxes, available in three sizes, are suitable for a wide range of QSR hot foods and our food liner provides extra resistance should you need it for foods with lots of sauce or added grease.

Our innovative Taste oriental hot box is made from fluted board and is dual ovenable so perfect to cook or reheat food in the pack and a stylish, ergonomic design so people can eat straight from the pack with ease.

Our stackable, multifunctional Takeaway Containers (TAC) containers are simple and light, ideal for takeaway food and delivery service.

## THINK FOOD THINK FLAVOUR

Menu development in this area is vast and a wide range of new, undiscovered flavours are being introduced. There is a growing demand for authenticity and provenance and the health-conscious movement stimulates demand for balanced dishes. We are seeing Asian, African and in particular, Middle Eastern food influences everywhere due to the comforting, warm herbs and spices and depth of flavours.

Consumer food choices are no longer just about the flavour. Our decisions are increasingly based on a wider range of influences and social values. The plant based trend has gone beyond just meat alternatives and now spans across most food categories. Street food, smaller portions and tapas style serving trends continue to greatly impact the food packaging we develop enabling versatile choices for you and your customers.

## Stylish tapas.

#### REASONS YOU'LL LOVE IT

VIP Oriental cartons are the perfect solution for serving fast and fresh pan Asian foods without a sauce.

Our Taste boxes on page 24 can be used to serve a wide range of foods with sauces such as a Katsu curry and rice.

## PERFECT PACKAGING

Packaging is vitally important to meet the changes in how customers order and consume takeaway food and drinks, whether grab and go, drive thru, click and collect or delivered. Consumers continue to want choice and variety and street food is a growing area on menus. However, it is currently being enjoyed via different means and not just from street stalls. Lunch meals, picnic sets and bento meals are all aimed at outdoor

socialising and home workers, and are examples of how the rapid deployment of new ranges has adapted to current consumer needs.

TAC boxes and snack cartons are perfect for healthy or indulgent meals, snacks and side dishes. Serve fresh, quick and vibrant hot and cold foods to people eating on the go or to their home or place of work.

## ASIAN CUISINE FOOD PACKAGING

Sushi has experienced growth in restaurants, retail and food to go in recent years partly due to being seen as a healthy food trend as well as the growing awareness of Japanese cuisine and flavours.

Through branded chains, independent stores, delivery and retail, Sushi is frequently found on menus with a much wider reach as a lunch, dinner or snacking option.

## TRAYS TO TRULY SHOWCASE YOUR FOOD

To present and serve food, optimise the presentation while keeping the food fresh and delivering on sustainability and increased responsibility. As speed, innovation and convenience become key, food packaging becomes pivotal as people expect the packaging to reflect the quality of the product it contains.

Our paper board-based Sushi packaging reduces the use of plastic versus many traditional Sushi packs and the integrated window means there is no need for a separate plastic lid. The window provides good product visibility when placed in a chilled environment and our Sushi boxes come pre-assembled and are easy to store. Our Sushi boxes also have a moisture resistant lining which keeps the contents fresh.

The black inside delivers a premium presentation and is the recognised style of classic Sushi packaging.

A close-up photograph of a white ceramic cup filled with oatmeal. The oatmeal is topped with a generous amount of dark red jam and several fresh blueberries. The cup is placed on a light-colored wooden surface. In the background, slightly out of focus, is a round, golden-brown cookie on a wooden tray. The word "en" is partially visible on a brown paper bag in the upper right corner.

Breakfast

# Hot or cold? The choice is yours.

## FOOD CONTAINERS

Our paper food containers are a versatile choice for takeaway and delivered hot and cold foods. Stackable, lightweight, yet strong with tight fitting lids if required. Our round containers are an excellent choice to serve a wide range of foods such as porridge, soups, noodles, one pot hot meals, pasta and desserts.

Suitable for serving over the counter, hot cabinet, takeaway and delivery use, our leakproof round food containers are multi-functional for retail, foodservice, QSR and convenience environments.

## FUTURE SMART™ FOOD CONTAINERS

Introducing Future Smart™ Huhtamaki's first 100% renewable paper food containers made completely from plant based materials. New materials and technologies lead to new solutions that significantly reduce dependence on fossil fuel based materials and offer more consumer choice.

We are now ready to bring the same innovation to other packaging products by utilising our packaging knowledge and the same sustainable material to give our customers a new option for round food containers.

# Anyone for a drink?

## DRINKS, LIDS & ACCESSORIES

From freshly brewed coffees to creamy hot chocolates, chilled fresh juices to iced caramel frappés or a pint of your favourite tippie, we've got the right products for you. Whether your customers are drinking at home, at work or on the go; our hot cups, tumblers, lids and carry trays are the right packaging to support your products, wherever they're enjoyed.

### CRAVING A COFFEE?

For customers looking for a coffee or other hot drink to takeaway or be delivered to their door, our natural double wall hot cups have an optimum 'S' wave design for enhanced insulation; there is no need to use a separate sleeve therefore saving cost, space and reducing SKUs. Most importantly, they use 25% less material versus competitor smooth and triple wall cups.

Available in three sizes 9oz, 12oz and 16oz with a variety of delivery and on the go lids to fit including our new fiber lids as an alternative to plastic. So, whether you are serving in, providing a takeaway or delivery service, we have the perfect solution.

### COLD & REFRESHING

Our Polarity tumblers and lids are perfect for a variety of fresh and cooling drinks such as milkshakes, smoothies, frappés and freshly squeezed juices. They are also ideal for serving cold foods to go and delivery options such as pasta, cous cous, fruit salads, breakfast pots and sweet treats. Made from RPET, a material derived from recycled PET bottles, they are recyclable, offer excellent clarity and are also crack resistant.

### A PERFECT PINT

Our pint and half pint tumblers carry the UKCA mark, which means you can serve your customers with their favourite beer, cider or other alcoholic beverages alongside the food order. As our pint and half pint tumblers are shatterproof, they are perfect to serve customers when outdoor drinking is a must, easy to clear up and widely recyclable via kerbside collection - please check with your local authority.

#### RESPONSIBLY PRODUCED

Our Impresso hot cups are made in the UK and provide an extra layer of insulation for use with all hot drinks, while using 25% less material versus other insulated and double wall cups in the market. This way we can help reduce your packaging waste without compromising on performance.

#### RECYCLABLE

Did you know, all of our cups can be recycled? There are now more options available than ever to return your used paper cups to be recycled in the UK. There is a wide range of national and regional waste contractors who have cup recycling programmes and opportunities via post back schemes.

For more information on recycling your paper cups, please see page 3.

## WHY SWITCH?

For us, sustainability is all about doing more with less.

By using our Impresso hot cups, you can reduce your packaging weight without compromising performance. More cups in a case means that less storage is required and reduces the frequency of deliveries.

Our tumblers and lids are manufactured using a minimum of 40% recycled content!

## FOOD & DRINK VISIBILITY

Colourful and visually appealing food and drink has seen a surge in popularity, driven by social media channels such as Instagram. Artistic and visual presentation is so important as customers eat with their eyes before taking a bite! Our range of clear RPET tumblers and lids provide a safe, high quality and shatterproof alternative to glassware and are used by some of the leading foodservice brands in the world. They are also widely recyclable!

## To top it off.

### REASONS YOU'LL LOVE IT

Add a domed or flat lid to protect your drink and then enjoy it using our quality paper straw!

16oz RR98545LFS-PB

21oz RR98610LFS-PB

Our RPET strawless sip lid means customers can be served a cold drink, slush or smoothie without the need for a straw

## SIP THRU & SIMPLE

Our new 98mm RPET strawless sip lid fits our 12oz, 16oz and 21oz Polarity tumblers, which is easy for service and gives a choice of drink sizes with just one lid designed to fit all tumbler sizes. Providing an alternative option to a lid and straw.

What does this mean for you? Fewer SKUs to manage, less complexity and our strawless sip lid is a cost-effective solution versus using a lid and straw.

UKCA PINT & HALF PINT

Our pint and half pint tumblers (to line or brim fill) are certified to carry the approved UKCA mark. So you can now use free flowing pumps and be confident in the measures you are serving!

REASONS

## EVERY DAY RECOMMENDED HUHTA MASK

Huhta Masks are a technical article of performance attire designed to repel water droplets and are uniquely infused with silver ions, which provide anti-microbial properties, all while looking good, fitting well and feeling extremely comfortable.

Highly breathable and designed for comfort, Huhta Masks can be worn for extended periods of time and the colour palette works with business attire, workwear or everyday clothes.

# Stay safe

# Breathable comfort.

REASONS  
YOU'LL LOVE IT

Huhta Marks are for everyday use; they are made to last and are fully washable, meaning you don't have to worry if it gets dirty

## HUHTA MASKS

We care for the well-being of the whole family, which is why the Huhta Mask comes in both adult and child sizes, a choice of colours, and both come with adjustable earloops to get just the right fit for you and your loved ones.

## THE CLEAR CHOICE

High-quality protective face shields by Huhtamaki, provide a high level of protection for the eyes and face from liquid splashes and droplets.

The shields have been designed with soft foam padding for extra forehead comfort and an adjustable strap to ensure a secure fit for all head sizes. These precision-cut optically clear and lightweight visors are ideal to use for a full day's shift and can be worn over prescription glasses and used in conjunction with a face covering.
